

ANTS: ECOSYSTEM ENGINEERS

Montana Space Grant Consortium (MSGC) is hosting an all-expense paid, hands-on workshop to help introduce students to ANTS, our ecosystem engineers. This spring, Joe Eason from the University of Montana – Western in Dillon will have students learning about ant behavior and how they affect ecosystems

Montana undergraduate without previous research experience who are interested in STEM research are encouraged to apply. Freshman and students who are from small campuses are given priority.

Participants receive a \$200 stipend and certificate.

Travel is reimbursed with lodging and meals are provided.

2025 Dates:
4/25 evening
& day of 4/26

To Participate:

1. Apply with the QR code or visit our webpage for more information:
<http://spacegrant.montana.edu/workshops.html>
