

Montana Space Grant Consortium Faculty Fellowship Proposal

*Suggested template (not required); Replace red text, delete green
suggestions/instructions*

Name

Position Title

Institution and department

Requested number of weeks: **#; #** personal time cost share

Date Submitted: **TBD**

Submit at:

<https://spacegrantmontana.submittable.com/submit/215123/faculty-fellowship-awards>

Project Description

Introduction

Describe the need for the activity at your institution. Include a bit about your background, current skills in the area, and desire to do the requested work.

NASA relevance

NASA has a wide variety of study areas, from traditional space science to Earth science and agriculture. Try to tie your effort to one of the areas listed in documents like the [NASA Areas of Interest](#).

Methods

How will you accomplish the work? What is needed in terms of space, supplies, and time?

Goals

Describe 1-4 overarching goals

Objectives

Describe the more specific objectives of what you plan to do (i.e. tasks)

Anticipated results

What do you think the outcomes of the work will be?

Professional Development Description

Knowledge/skills currently lacking

Describe what you will gain personally.

Learning objectives

Give a few specific examples of what you hope to learn.

Post-fellowship capabilities and plans

What do you anticipate the personal results will be? How will you use these in the future?

Student Involvement

Work environment

Where will students participate in the effort?

Anticipated student tasks

If concurrent to your fellowship or following, what are the anticipated activities the student(s) will undertake?

Anticipated student outcomes

What will the students gain?

Timeline

Plans for each week (add as needed)

- Week 1: **TBD**
- Week 2: **TBD**
- Week 3: **TBD**

Cost share time

Describe what you will do during your personal time cost share. We understand that creating a new opportunity takes a lot of work and that you will spend quite a bit more time than what we can offer in support. This includes effort during planning, adjusting, and carrying out the activity. We ask that you commit to an equal amount of personal time as we support, as this is a fellowship – a learning opportunity for you. Of course, this will help enhance your institution and benefit students, but supporting faculty members through subcontracts is much more difficult and slow process. We want to get you support in a timely manner.

NAME One-page CV

Letter of support from department chair
